# NEW TWISTER COMBINATION WRENCHES

NEW

The new Fasano Tools **TWISTER** wrench has a unique and innovative design: the rotation on the handle makes the heads perpendicular to each other, so that the user holds the wrench from the flat side having a larger surface available.

This allows to increase the twisting force by more than 20% compared to standard wrenches, significantly reducing effort and hand work during use.

# POWER TOOLS

PERFORMANCE  
RELIABILITY  
QUALITY

BRUSHLESS  
MOTOR

Look at the new Fasano Tools power tools range: two lines with different voltages (14.4V and 18V) designed to meet professional user needs. Next generation Lithium batteries equipped with

high quality cells have been developed to optimize tools performances. Furthermore, all the new power tools have the brushless motor to ensure advantages in terms of power, efficiency and durability.

## PERFORMANCE

Brushless motors have lower energy consumption, which allows them to deliver more power with optimal performance even in demanding applications.

## EFFICIENCY

The brushless motor works with greater efficiency, improving tools runtime during use and extending tool life.

## COMPACT DESIGN

The more compact design of brushless motor also makes tools lighter and more comfortable to use, even in the most difficult situations where space is reduced.

## FUNCTIONAL

## COMPACT

## VERSATILE

Li-ion  
2Ah

The 14.4V platform consists of 7 models all compatible with the same 14.4V battery for high versatility in different working situations.

Thanks to the compact design, these tools allow you to work comfortably and their performance is adequate to complete the job in the shortest possible time.

The 14.4V Fasano Tools power tools available are: 1/2", 3/8", 1/4" ratchets; straight and angle mini grinders and two belt sanders with different belts.

## RANGE

# 14.4V

## HIGH PERFORMANCE

The 18V system includes power tools able to deliver the highest performance also in demanding applications.

18V lithium battery with 5Ah to optimize performance and with 4 led indicators to check runtime.

Powerful LED light for efficient illumination of the working area.
